California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the list as a fresh young combatant for the production of wines from her own rich and increasing vineyards. The time has come when it is simply ridiculous for her one house to lay claim to especial advantages or peculiar privileges for the sale of

WOULDN'T TAKE TWENTY DOLLARS.—Some waggish students of Yale College a few years since were regaling themselves one evening at the "Tontine," when an old farmer from the country entered the room, taking it for the bar-room, and inquired if he could obtain lodgings there. The young chaps immediately answered in the affirmative, inviting him to take a glass of punch. The old fellow, who was a shrewd Yankee, saw at once that he was to be made the butt of their jests, but quietly taking off his hat, and telling a worthless little dog he had with him to lie under the chair, he took a glass of the proffered beverage. The students anxiously inquired after the health of the old man's wife and children, and the farmer, with affected simplicity, gave them the whole pedigree, with numerous anecdotes about his farm, stock, &c., &c.

"Do you belong to the church?" asked one of the wags.

"Yes, the Lord be praised, and so did my father before me."

"Well, I suppose you will not tell a lie?" replied the student.

"Not for the world," added the farmer.

"Now, what will you take for that dog?" pointing to the farmer's cur, who was not worth his weight in Jersey mud.

"I would not take twenty dollars for that dog."

"Twenty dollars! why he is not worth twenty cents."

"Well, I assure you, I would not take twenty dollars for him."

"Come, my friend," said the student, who, with his companions, was bent on having some capital fun with the old man. "Now, you say you won't tell a lie for the world, let me see if you won't do it for twenty dollars. I'll give you twenty dollars for your dog."

"I'll not take it," replied the farmer.

"You will not? Here, let us see if this won't tempt you to tell a lie," added the student, producing a small bag of half dollars, from which he counted small piles on the table, where the farmer sat, with his hat in his hand, apparently unconcerned.

"There," added the student, "there are twenty dollars, all in silver, I will give you that for your dog."

The old farmer quietly raised the hat to the edge of the table, and then as quick as thought scraped all the money into it except one half dollar, at the same time exclaiming, "I won't take your twenty dollars. Nineteen and a half is as much as the dog is worth; he is your property."

A tremendous laugh from his fellow students showed the would-be wag that he was completely "done up," and that he need not look for help in that quarter; so he good-naturedly acknowledged himself beat, insisted on the old farmer taking another glass, and they parted in great glee, the student retaining the dog, which he keeps to this day, as a lesson to him never to attempt to play tricks on men older than himself, and especially to be careful how he tries to wheedle a Yankee farmer.

NEWPORT DAILY NEWS.

SATURDAY, October 12, 1867.

INTEMPERANCE OF WOMEN.

Much indignation was awakened and some of it found expression through the press, when a New York paper, a year ago, made the startling assertion that intemperance was prevalent among the fashionable women of that city. Although most people could hardly credit the statement, and others tried to wink it out of sight, many eyes were opened to a condition of morals, existing not in New York alone, which is most deplorable. In that city facts are often coming to light which prove that no representation of the state of things has as yet been too strong, and that the most efficient measures practicable to arrest such an evil cannot be taken too soon.

On the most reliable authority we lay before our readers a few facts given by a correspondent of another paper. Those we copy are but a part of what are related. In a fashionable boarding house near Fifth Avenue, where no bar was kept, and genteel families boarded, there was a lady—a charming person in other respects—who was almost habitually tipsy, and visited the rooms of other ladies while in that condition. One night, at the hour of two o'clock this lady came to the room of my acquaintance and rapped loudly. When the door was opened the visitor entered in a state of beastly intoxication. With a thick and stumbling utterance, she declared that she was sick, and wanted brandy.

"I have no brandy," was the reply. "Go back to bed."

The woman refused to go without being furnished with brandy. She made such a disturbance that the occupants of other rooms were roused, and it was finally found necessary to put her out of the room by main force.

The next morning the nocturnal visitor called upon the lady she had disturbed, and made an abject apology. She said that her husband had taken her brandy bottle from her, and that the deprivation drove her nearly wild.

So much annoyance was occasioned by the conduct of this victim of a debasing appetite that it was resolved to complain of her to the landlady, and secure her ejection from the house. The resolution was taken at a late hour of the night, when she was creating a disturbance. When the complainers reached the door of the landlady's room—which was on the first floor, a considerable distance from the scene of disturbance—they paused, hearing a high voice speaking within. What was their consternation at finding that the landlady herself was drunk, and that her husband was at the moment taking her to task for it! Of course all purpose of complaining was at once abandoned. I know another instance of a lady who was found staggering about the halls of a large hotel, late at night, in a state of profound intoxication.

Other instances of like character are given and perfectly authenticated, and then is described one of the fashionable "institutions" of New York termed a "lady's lunch." It is in reality an elaborate dinner, for which invitations are extended to ladies only, and is given at an hour of the day when the gentlemen are down town at business, in Wall Street and elsewhere. These 'lunches' are common in Fifth Avenue, and on all the fashionable 'squares' and 'places.' There are generally given with the 'lunch,' or dinner, the following courses of beverages: With the oysters, Chablis or Sauterne; with the soup and fish, sherry; with the meats, champagne and Burgundy; and after coffee, curacoa, anisette, and other liquors and frequently brandy. This orgy is kept up till exhaustion supervenes, and at about five o'clock, P. M., the feminine debauchees enter their carriages and are driven to their aristocratic homes.

No friend of humanity or lover of the domestic virtues would retail these facts for the sake of scandal; and we would gladly draw a veil over them were it not that the customs of society and the uses of domestic medicines and beverages are tending to the production of this evil everywhere. The very thing spoken of is seen in this city where the ladies become hilarious at dinner and the children (girls,) on leaving the table, confess themselves "boozy." It is well that our law prohibits the sale of liquors to women and children, and it would be better did it prohibit the traffic entirely and carry that purpose of prevention into thorough effect.

Roger Williams' Meeting House.

A writer in the *Watchman and Reflector* gives a description of the old meeting-house in Salem, Mass., where Roger Williams was installed as pastor in 1631 and continued to act in that capacity until 1636. The building stood on the site of what is still called the First church. In one of the outer walls of this church there is placed a white marble slab, bearing the following inscription:

"On the 20th of July, 1627, a day set apart, by order of William Endicott, then Governor of Massachusetts Bay, the first settlers met for the purpose of establishing a church, which was fully organized on the 6th of August. Samuel Skelton was elected pastor and Francis Higginson teacher.—Their immediate successors were Roger Williams in 1631, and Hugh Peters in 1636. The frame of the first meeting house, in which the civil affairs of the colony were also transacted, is preserved, and now stands in the rear of Plummer Hall. It was enlarged in 1689. The second meeting house was built in 1670. The third in 1718. The fourth in 1826—all on this spot."

The writer, happening to read this inscription, sought to verify the statement, procured a key and was shown into the yard in rear of Plummer Hall where he found a small, neat building, painted brown, and modern enough in its external appearance. But on entering it there was indeed the frame of the old church, built two hundred and forty years ago, and in which Roger Williams preached two hundred and thirty-six years ago. The building has been nearly covered without, but within every beam and rafter and post may be seen, just as they were hewn and fitted in those early days. The audience room is small—would hardly seat more than a hundred—and the singing gallery, the frame of which is still preserved and in its place, extends over about one-third of the length of the room.

THE CONFIDENCE MAN, GEN. HUMPHRIES. A short time ago we gave the particulars of the operations of one calling himself General Humphries in Pittsfield, Mass., where he became acquainted with a Miss Kenyon, with whom he left, as he pretended, to place her in a situation as governess in Kentucky, after swindling several persons out of money and goods. The Cincinnati *Gazette* adds to the story as follows:

After leaving New York the General went with Miss Kenyon to Philadelphia, where they were married. From thence they came directly to Cincinnati, and, without stopping any length of time, proceeded to Madison, Ind. Upon the day after their arrival there, Humphries informed his bride that he would be obliged to leave her for a short time, as business required his attendance at Louisville. Leaving Madison, he came directly to this city, and on the following evening telegraphed his wife to meet him here at the Burnet House. The telegraph was promptly received, and the next morning the young wife arrived here and met her husband. Previous to the arrival of the General, detectives Mitchell, Hazen and Carey had received a full description of him, and he was recognized while standing on the Burnet House steps. A close watch was kept on him, and the General noticing this, determined to escape from the house, taking with him his bride. This, however, was frustrated, and the General was obliged to leave the house alone. The detectives noticed his departure, but supposing that he would return for his wife, kept a strict watch on her. On the corner of Fourth and Vine streets Humphries secured the services of a hackman, and writing a note to his wife, sent to the Burnet House for her. Notwithstanding, that the detectives were on the alert, the lady managed to leave the house, taking with her all the baggage belonging to herself and husband. Driving along Fourth street, the hack stopped and the General entered it; the pair were then driven over to Covington, where they passed the night. On the following morning the lady came over to this side of the river, accompanied by her husband, and stopped at one of the principal hotels. He then left her, stating that he would go over to Newport to see his uncle. In an hour or two he returned, saying that his uncle had gone East, and had left word for him (the "General") to meet him in New York. He accordingly purchased two through tickets, and giving his wife one, told her to take the evening train on the Little Miami Railroad, and that he would join her a few miles up the road. In the meantime, Detective Mitchell learned the whereabouts of the wife, and followed her to the train. He purchased a ticket, and took a seat exactly opposite. When the train arrived at Columbia Station, the General got aboard, and was immediately collared and brought to this city. His wife, who now became aware that her newly-made husband was an imposter, has returned to the care of her friends in the East. The General is held to await a requisition from the Governor of Massachusetts on the charge of forgery.

On Sunday, the 21st of September 1867, Rev. E. H. Sears, pastor of the Unitarian church at Weston, Mass., twelve miles from Boston, submitted a long communication to the church in which the ground was boldly taken that the American Unitarian Association had forfeited all claims to the support of any who professed to be Christians, inasmuch as they had given their funds to the dissemination of the most infidel sentiments, thus rendering true the very worst that had been charged by the orthodox, as to the denomination. He quoted from publications authorized by the Executive Committee of the Association to sustain his assertion—in one which it was stated that "no one of the Gospels is 'authentic,'" and that of "John is an entire fabrication:" others where Christ was spoken of as" a young man not only deceived himself but deceiving others." The biographer of Theodore Parker had been admitted to the Board and had been assured that he and his friends should be consulted as to every act, and that no aid should be withheld from any minister on account of his opinions. For these and other reasons Mr. Sears believed it to be the duty of all who held to the authenticity of the Scriptures, and to faith in Christ, to withdraw from all further support of the Association. His views were adopted by a unanimous vote of the church. Mr. Sears is editor of the *Religious Monthly Magazine*, and holds a high position as one of the most earnest, practical and evangelical of the Unitarian clergy.

A few days since a lady named Taylor, residing in Cape Elizabeth, Me., lost five $100 government bonds while on her way to Portland, which were subsequently picked up by an Irishman who, not knowing their value, carried them home and gave them to his children as 'pretty pictures.' They cut the bonds up, but preserved the coupons which they kept to play with. The City Marshal of Portland, noticing one of these in the hands of an urchin, instituted a search which resulted in the development of the above facts and the recovery of a considerable number of the coupons.

The death is announced in the Parish of St. Martin, Colchester, England, of Mrs. Ann Ramsey, widow, in her one hundred and fourth year. It is an interesting circumstance that she was the daughter of the celebrated circumnavigator Captain Cook, who was massacred by the natives of Owhyhee, in the South Sea Islands, and that she was born only a few years after the accession of George III. to the throne of England.

KEEPING UP COWS.—Colman's Rural World gives sundry reasons why stock, especially that of the dairy character should be well fed and cared for during the autumnal months. It is sufficient to say that good care and liberal feeding at this season fit cows to encounter the rigors of winter successfully, but more especially do they conduce to a liberal and rich flow of milk, thus improving the character and increasing the quantity of the butter product. A free use of pumpkins and roots, with their tops, and an occasional mash meal, will amply repay the cost of the articles and richly remunerate the farmer for his trouble in supplying them. Autumn being emphatically the butter season, which 'cows' then, if ever, deserve extra care and consideration.

PERSONAL.—We are pleased to hear of the continued success of our friend James H. Wilson, who is still pursuing his musical studies in Germany. At last advices he was at the Conservatory at Leipsic where he expects to graduate about Easter. He is winning quite a reputation in Germany and has played in presence of the famous Liszt, who cheered his rendering of Shopin's Polonaise in E. flat, and seemed much interested in the young American. Mr. Wilson will probably after his graduation take lessons for a time of some of the distinguished musicians of Europe.

BOSTON, NEWPORT AND NEW YORK STEAMBOAT COMPANY.—The New York *Post*, in an article on the passenger and freighting business between New York and Rhode Island, says of this line that it is one of the most popular of the inside lines to Boston. The steamers of the company land at Newport. The business in passenger transportation has greatly increased this year, and in freight will compare favorably with any previous year. The company have made a reduction of twenty-five per cent. in the rates of freight over last year.

He has at last succeeded in detecting some of the thieves and will deal with them as they deserve.

New Temperance Tales.

The National Temperance Society and Publication House have just published the following Sunday School Books:

THE HARD MASTER—a temperance story. By Mrs. J. E. McConaughy, author of "One Hundred Gold Dollars" and other popular Sunday School books.

This interesting narrative of the temptations, the trials, hardships, and fortunes of a poor orphan boy, illustrates in a most striking manner the value of "right principles," especially of honesty, truthfulness, and *temperance*. It is one of the best books to put into the hands of young lads, and ought to be read by every Sunday School scholar. We should think it impossible for any one to read it, without being moved with pity and sympathy for the children of intemperate homes. Price, 85 cents.

ECHO BANK—a temperance tale by "Ervie."

This is a well-written and deeply interesting narrative, in which is clearly shown the suffering and sorrow that too often follow, and the dangers that attend boys and young men at school and at college who suppose they can easily take a glass or two occasionally, without fear of ever being aught more than a moderate drinker, a very suitable book to put into the hands of the young. Price, 85 cents. J. N. Stearns, publishing agent, 172 William St., N. Y.

The United States Musical Review is a new publication issued monthly by J. L. Peters, 200 Broadway, New York. The October number, which is No 2, contains a large amount of musical intelligence and criticism, also of musical advertising. It also has four pieces of pleasing music: Do you think the Moon could have seen us?, White Moss-Rose March, Mabel Waltz, and Nora O'Neal. The Review is a three column paper of forty pages, at $1.50 a year.

AN ESSAY ON MAN. By Alexander Pope With fifteen original Illustrations, and Notes by S. R. Wells. One vol., 12mo, fancy cloth, beveled boards, gilt, $1; paper, 50 cents.

The publisher of his new edition, appreciating the lack of an illustrated Essay on Man, has caused the work to be carefully illustrated, annotated from the Phrenological point of view, and printed in an attractive style on superior paper. A succint biography of the poet, and his highly esteemed "Universal Prayer," are published with the "Essay," making, together, a very desirable volume for the library or the center-table. S. R. Wells, 389 Broadway, N. Y.

The same publisher has issued in pamphlet Dr. Osgood's sermon on The Gospel among the Animals, treating on the true relation of men to the animal world.

GOOD FEEDING.—Feed liberally. Feed at regular times. There is no profit in poor animals of any description. They eat more and fare worse than animals liberally fed, and they return less profits. See that the food is clean and palatable. The hens on the hay-mow and the dirty feet of men and children running over hay and green corn fodder on the barn floor, do not improve it or render it more palatable to a cow of nice taste, and if she seems dainty, under such circumstances, blame yourself and not her. The waste and want of economy in some barns from these and other causes is often enormous. A really good and judicious feeder of stock is rare. Feeding is an art, to be acquired by the most careful experience and observation, and few attain proficiency in it.

PENNSYLVANIA.—In Pennsylvania, official returns from all but twelve counties give the Republicans 86 majority. The remaining counties last year gave over 1800 majority against us, and the probability is that the Democrats have the State by a few hundred votes. We have nothing later from Ohio.

Work on the elevated railroad in New York has been resumed and the first quarter mile will be finished in two or three weeks, when, if the experiment works satisfactorily, it will be rapidly extended the whole length of the island.

At Machias, Me., during Court week some sharp chaps did a lucrative business selling 'pond water,' in well sealed bottles, for whiskey. The purchasers were not disposed to make a fuss over their loss.

"Charlie, I was very much shocked to "hear you singing "Pop goes the Weasel," in church." "Well, mamma, I saw every body was singing—and it was the only tune I knew.

Rev. S.L. Hohman, late of South Berwick, Me., has become pastor of the Baptist church, Woonsocket, R. I. By gifts and resolutions formally adopted in church meeting, the church and people of South Berwick expressed their confidence and esteem toward their pastor and his family.

A little Norwegian girl in a mission school in Chicago, when the time came for repeating the Bible verses, rose, and rattled off with

"I had a little hobby horth,

And ith tail with made of hay."

Chief Justice Chase will preside at the trial of Jeff. Davis, and contemplates getting through with it in time for the opening of the Supreme Court in Washington on the first Monday in December. The time of counsel will be limited, and the trial will be shortened as much as posible, for the Chief Justice has said that he does not intend to make it an everlasting affair.

"A Honolulu dispatch of Sept. 26 says: "The U. S. Steamer Tuscarora, from the Feejee Islands, via Tahiti, arrived here on the 19th inst. Capt. Stanley urged the payment of the claims held by the United States, and the king, not being in funds, has mortgaged three islands—Mafuri, Ambiuki and Naitiri—to secure the payment. The first named Island has a good harbor. Alexander Green chief Engineer, died at sea."

General Sheridan, in a conversation at Patterson, New Jersey, in explaining the words in his speech, that "Rebellion must not be made honorable," said "They mean that if you return the Copperhead party to power you disgrace your soldiers and destroy their work. You return to power a party who mean nothing less than repudiation of the National debt, and the payment of the rebel debt, and the restoration to power of the worst elements of the rebellion."

East Providence.

ORDINATION OF REV. JOHN W. DICK.—The Second Baptist Church of this town having called an ecclesiastical council for the purpose of considering the propriety of setting apart Mr. John W. Dick to the work of the Gospel Ministry, a meeting of the Council was held at the Church, Thursday afternoon, at two o'clock. The following churches were represented: First and Second, East Providence; Brown street, Central and Third, Providence; High street, Pawtucket; Valley Falls, and First, Lowell. The Council organized by the choice of Rev. H. C. Graves, as Moderator, and Rev. A. Howard, as Secretary. After a satisfactory examination of the candidate, it was unanimously voted to proceed with the ordination.

The ordination services took place in the evening, commencing at 7 o'clock. The house was well filled by an attentive audience, and the exercises proceeded in the following order:

Singing of the hymn—"Father of Mercies, bow thine ear."

Invocation by Rev. Geo. W. Gile, of Valley Falls.

Reading of the Scriptures by the Rev. H. C. Graves, of Brown Street Church.

Prayer by the Rev. John Allen, of East Providence.

Singing of the hymn—"Spirit of Peace and Holiness."

Sermon by Rev. H. Lincoln, D. D., of Providence, from Rom. 8: 31—"If God be for us, who can be against us?"

The prayer of ordination was offered by Rev. I. Cheseborough, of the First Church, East Providence.

The hand of fellowship was given by the Rev. A. Howard.

The charge of the candidate, by Rev. H. C. Graves, and the charge to the church, by Rev. C. H. Spaulding, were each touching and effective services, abounding in wise counsel and fitting words of encouragement and cheer.

After singing the hymn beginning, "Let Zion's watchmen all awake" the interesting exercises closed with a benediction by the pastor.

MRS. LINCOLN.—A lady, in writing to the Chicago Tribune deprecating the severity of the press toward Mrs. Lincoln, says that she is entitled to the indulgence recently and universally exhibited toward the Empress Carlotta. The writer says:

"Many who have known Mrs. Lincoln for years, have for a long time unhesitatingly affirmed that her mind was wrecked, and that an insane asylum must be eventually her home. The evidences of her insanity, in a thousand ways, are not wanting."

PROVIDENCE, R. I.—The Stewart Street church, of which Rev. Chas. A Snow is pastor, received an accession of nine members the last Sabbath in September. Of this number there was one entire family, and the heads of three different families. During the last three years there has been a large accession of substantial and working members, including many young men of great promise.

The Newburyport *Herald* says the manufacturing corporations in New England for the making of cotton and woolen goods are now doing badly. Only those with the most approved machinery or at work on fancy goods are laying their way. Wool is now lower, paid in gold than before the war: and cotton is constantly declining, the depreciation falling upon the manufacturers in the decline of goods and the great dullness of the markets. It is doubtful if any of the companies in Newburyport will declare a dividend this year.

WHAT DOES IT MEAN?—A detachment of infantry and three batteries of artillery were sent to Fort McHenry Wednesday, and 200 regulars from New York have also arrived at Baltimore.

FASHIONS.—We have received from that enterprising *modiste*, MADAME DEMOREST'S MAMMOTH BULLETIN OF FASHIONS (70 figures) for Ladies, for the Fall and Winter of 1861-8; and also another of less proportions (61 figures) for children of all ages, each are accompanied by ten full-size patterns and a pamphlet of descriptions; the prices are, for ladies, $1 50; children, $1 50.

This is really a "big thing." Bulletins of fashions are issued semi-annually for gentlemen, but this is the first attempt to reduce the idea to practice for the benefit of ladies and children; and it is done with the liberality that characterizes all this lady's undertakings. The mammoth plates contain every variety of dress, beautifully colored for actual wear, together with patterns and the useful hints contained in the description books, should, we think, prove invaluable to every lady and mother, as well as every dressmaker. The plain patterns alone are worth much more than the cost of the whole. For sale by MME. DEMOREST, 473 Broadway, New York.

MANY PERSONS desire to use some pure stimulant, yet do not feel confidence in the many different articles recommended. To all such we would say that Danster's old London Dock Gin may be depended upon as being the very best article they can find. It is sold only in bottles, by the apothecaries and grocers.

STOVES, STOVES, STOVES! at the Blue Store, 133 Broad street.

IRON IN THE BLOOD.—When the blood is well supplied with its iron element, we feel vigorous and full of animation. It is an insufficiency of this vital element that makes us feel weak and low spirited; all such, by taking the Peruvian Syrup, (a protoxide of iron) can supply this deficiency, and will be wonderfully invigorated.

PORTLAND, Feb. 1, 1868.

The undersigned, having become practically acquainted with the Sambucl wine manufactured by Alfred Speer, of New Jersey, would say that he considers it a superior article, and far preferable to the quality of Port wine furnished to this market at the same price. H. T. CUMMINGS, M. D.
Assayer to the State of Maine.

There is no way by which public favor is so quickly gained as through the medium of its purse. People want goods cheap. There is no place in Rhode Island where Carpets, Oil Cloths, Furniture, Feathers, Stoves, Crockery and Housekeeping Goods generally, can be bought lower than at Cunningham's Emporium, Broad street, Providence.

STOVES.—The cheapest and best Cooking and Parlor Stoves can be found at the Blue Store, 133 Broad treet.

Wistar's Balsam of Wild Cherry.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail in our changeable climate at all seasons of the year: few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

From Mr. W. BASSETT.

Depot-Master and also Postmaster at Agawam, Mass.

"I commend DR. WISTAR'S BALSAM OF WILD CHERRY to the afflicted portion of the community, as a remedy of no ordinary character in *diseases of the Lungs*, and fully entitled to all that it claims. My wife has been so severely troubled with a hard, dry cough, as to unfit her for the ordinary domestic duties of life, and threatening hard to result in CONFIRMED CONSUMPTION. Nothing seemed to afford any permanent relief in the usual remedies resorted to; but with my advice she began the use of WISTAR'S BALSAM, and with the most complete success, as a triumph of medicine over disease. A change was apparent to all, soon after commencing its use, and before using up the second bottle the cough had taken its departure. So much for those similarly afflicted and disposed to be skeptical."

Prepared by SETH W. FOWLE & SON, 19 Tremont St., Boston, and for sale by Druggists generally.

No. 2.

DR. SCHENCK'S NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 25 Hanover Street, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption, or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars. Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are pure, and what part also; whether it is Tuberculous, Pulmonary, Bronchial, or Dyspeptic Consumption, or whether it is mostly an ulcerated throat and catarrh, or from Liver complaint.

His medicines have full directions, so any one can take them without seeking him; but if they live near by and are well enough, it is best to see him. All cases of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleared, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills, 25 cents per box.

Paris Exposition.

GOLD MEDAL.

An Admitted Fact.

It is admitted by all that ELIAS HOWE, Jr., President of **The Howe Machine Co.**, was awarded a GOLD MEDAL at the Paris Exposition.

Also, it is admitted that the *Grand Cross of the Legion of Honor* was conferred upon ELIAS HOWE, Jr., by the Emperor Napoleon. These were the HIGHEST HONORS ever awarded to a *Sewing Machine Manufacturer.*

THE ONLY QUESTION IS,

For what did ELIAS HOWE, Jr., *receive these honors?* He entered the Exposition as a MANUFACTURER of Sewing Machines, *not as "Inventor."* *He did not apply for or receive his Gold Medal as "Inventor."*

The AWARD speaks of MR. HOWE as "*Promoter*" and "MANUFACTURER" of Sewing Machines.

MR. HOWE (who is supposed to know) says the GOLD MEDAL was awarded to him *for his Sewing Machines exhibited,* AND FOR NOTHING ELSE.

Now in all fairness we ask, *Where Sewing Machines took the* FIRST PRIZE at the Exposition?

Let COMMON SENSE ANSWER, and we are content.

HOFF'S MALT EXTRACT, at
July 10 R. J. TAYLOR'S.

TELEGRAMS.

Washington Evening Dispatches.

A special Washington dispatch says it is understood that the postponement of the serenade at the White House was made in accordance with the request of the President. It is generally conceded that Gen. Grant and Secretary McCulloch will soon retire.

Medals of honor have been awarded to Charles H. Weeks, of the frigate Susquehanna, Thomas Kane, of the gunboat Verenus, and apprentice Frank Dumontis, of the frigate Sabine.

Another special says the President's friends state that the overtures made to the New York Democracy have not been accepted as yet, and no Cabinet changes will be made until the President hears *from* them. A proposition to abolish the Metropolitan Revenue Board is under consideration. Generals Schofield and Sherman have had interviews with the President. It is probable that Gen McClernand will succeed Gen. Grant.

Another special says it is probable that the negro suffrage amendment in Iowa is defeated. Eminent friends of the administration are consulting with the President and urging a vigorous policy and change of Cabinet. It is thought the result of the consultation between Gen. Schofield and the President will be the postponement of the election in Virginia.

There are suspicions that the alleged counterfeit bonds may be found to have been issued from stolen plates. An examination by experts outside of the Treasury Department is called for.

It is said that the leading Democrats refused participation in the Presidential serenade. It is stated that the Democrats intend to hold aloof from the President until he calls to his Cabinet Seymour, Wood, Vallandigham and Voorhees.

The applications of James A. Seddon and Commodore Barron for pardon are being considered.

An administration morning paper says that it appears to be quite probable now that General McClernand of Illinois may succeed General Grant in the War Department.

In conversation to-day Secretary McCulloch expressed the opinion that Mr. Pendleton's plan for paying the five-twenties in greenbacks was substantially repudiation and that it would not be adopted.

Gen. Sherman expects to leave to-day for New York enroute for St. Louis.

Chief Justice Chace will leave Cincinnati to-day and is expected here on Monday next.

Mayor Thomas, of St. Louis, thus accounts for the recent mortality by cholera in that city: "The city of St. Louis, from its geographical position, the empire city of the west end of the Mississippi Valley, being easy of access by steamboats and railroads, and also being the only available place within a radius of nearly three hundred miles where anything like adequate hospital treatment can be found, naturally becomes the resort of large numbers of the sick and afflicted, of not only the people of Missouri and Illinois, but of Kansas, Iowa, Indiana, Kentucky, Tennessee, and of many of the southern states."

The Chicago correspondent of the *Congregationalist* says: A Council in this state recently refused to ordain a talented, popular young man, because he denied the expiatory view of the Atonement, holding that of moral influence. He was a graduate last April of the Old School Presbyterian Seminary in this city, and a licentiate of the Chicago Old School Presbytery, which only asked him if he received the Confession of Faith. To which, as he says, he replied, "As well as I can."

LYON'S
PERIODICAL DROPS!

THE GREAT FEMALE REMEDY FOR IRREGULAR TIE

I tested these Drops in my own practice, over ten years, and do not hesitate to say, that nothing has yet been developed by medical research, that acts so powerfully, positively, and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to-day.

Although so powerful and positive they are perfectly harmless, and may be used at all times, except when specially forbidden by directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear the first instance of failure. I could give you testimonials of their efficacy from ladies all over the northern and western States, were they not in their nature private. Over 100 000 bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that when one bottle is thus used, ten may fall into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Leucorrhea, or the train of diseases that follow, I would say, try a bottle of DR. LYON'S FRENCH PERIODICAL DROPS. Being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my facsimile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by inclosing the price to C. G. CLARK & CO., New Haven, Ct., General Agents for the United States and Canada.

SECURE A POLICY

—IN THE—

NORTH AMERICA LIFE INS. CO.,

I. Because it gives more Liberal Policies, than any other Company. They are all nonforfeiting and incontestible. It insures **Officers of the Army and Navy**, in times of peace, at the usual rates, with no increased risks in event of hostilities. It makes no extra charge on change of occupation, nor for **TRAVEL or RESIDENCE, at any season of the year,** in the United States or Europe

NEARLY A WORLD-WIDE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure.

It makes special deposits in the Insurance Department of the State of New York, for which the State guarantees the payment of its Policies, in case the Company should at any time fail to meet its obligation. No other Company gives the assured such security, or anything equivalent thereto. **That is Best which is Most Secure.**

III. It is most economical. Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. Thus leaving in the hands of the Policy Holders the largest proportional sum for dividends.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport, WM. H. BLISS.

A Library of Universal Information.

THE NEW

American Cyclopaedia;

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE,

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.

750 double column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires farther information.—In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference, at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

Registering all the Important Events of Each Year—Valuable as a Work of Reference.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."
Atlas and Argus, Albany, N. Y.

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference."
Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following propositions: They will put up at the market price one hundred pound papers of English Breakfast Oolong and Hyson Teas, such as they are now retailing, for one dollar per pound, and deliver the same on the 15th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

These are not a cheap tea provided for the purpose, but a **regular standard article.** Other grades may hereafter be sold in the same way. Now is the time to send in your orders.

To all Hop Producers and Dealers.

The following resolution was passed at the Seventh Brewers' Congress at Chicago, June 6, 1867, viz.:

Resolved, That all sacks and bales of hops should be marked by the seller with the gross and the net weight, and that only the net weight should be paid for; that the members and associations pledge themselves not to buy any hops unless thus marked, or of any dealers who do not conform to these requirements; that they should go into effect when the new crop came into market in the Fall. jy31—2m,d

ACROSS THE SIERRA NEVADAS

THE

Central Pacific Railroad.

THE WESTERN HALF

OF THE

GREAT NATIONAL TRUNK LINE

Across the Continent,

Being constructed WITH THE AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the world; as it is the *sole link between the Pacific Coast and the Great Interior Basin,* over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in Gold:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$487,579 64	$86,543 47	$401,031 17

or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation; and is exclusive of the materials carried for the further extension of the road.

The Company's interest Liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges. Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 843 miles **$28,592,000,** or at the average rate of **$35,-**

160 per mile—not including an absolute grant of **10,000,000** acres of the Public lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, THE GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty-Year Six Per Cent. Coupon Bonds,

Principal and Interest Payable in Gold Coin,

in New York city. They are in sums of $1,000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added, in currency, at which rate they yield nearly

Nine Per Cent. upon the Investment.

These Bonds, authorized by act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent in all cases the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, Stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.

First. They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second.—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third.—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth.—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth.—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources and prospects of the Road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*
